FLYER.us

Mrs Amanda Miles

FLYER's teacher

I'm overjoyed that all of my students received very high or maximum scores on the Cambridge YLE exams. FLYER is definitely a must-have studying app for children. Thank you so much for such an excellent product!

Mr Stephen Ng

FLYER's teacher

Very recommend! FLYER helps me manage all my students' information efficiently & effortlessly using its Admin Dashboard feature.

Mrs Jenna Liu

FLYER's parents

My kids really enjoy studying on FLYER. All the visual & interactive exercises are very helpful in helping them improve their English. They then both got high scores in the TOEFL exam.

Good

It's really good I mean everyone always saying good things about it which it's really true. There's not that many good apps that can teach you a different language and the teaching is really good. Also, it's fun that I can actually, you know have friends on there and have a profile. And I love that like you can learn multiple languages and you can go as far as you can with the language and you can even learn English if your like Hispanic or from a different country and are visiting the USA. I also just love the people around it just encouraging you the entire way, which is really nice when you think about it because there's not some actual people who will encourage you to keep learning a different language cause honestly people can be really hard on you when you're trying to learn a different language like when they already know it and they are just like saying random stuff that you don't even know and they're like "what is that?" And then you're like "I have no idea," and then when you have no idea, they're like "you should've known that." But really they never even tell you anything and they just expect you to know it but sometimes that's not the case and I'm not trying to be mean to any people who are genuinely, actually teaching them anyway enough of my babbling it's really great and you should really get it and you can play it at any age and it's really fun. Amazing love it.

Duo

You know when u first open duo u think it going to be normal like any other language learning app that people throw in the trash cause we talking Duolingo right now. Well my first thought when I opened it up was I'm going to be a super learner and be super lingual but ofc it was going to take time to do that and learn every day with school and stuff in the way but I told my friend about it and I wanted to learn with her and I'm not doing so well but ofc I open it one's in a while and start learning most of what u want to learn it music math and language for language it's a lot of choices and u can do more than one bug u recommend u too finish learning the language u start with so u don't get to carried away, also when I told my friend she said it was dope and she's been hacking at it she's amazing at it and I'm still learning but that's what's good about it , it will keep reminding u if you forget so u can do it one's in a while so u can get ur streak on again also it gives u a break from reminders so u don't have to worry all about it but my total is 5 stars cause it amazing for learning and it's free I do recommend but not when ur about to leave for a trip and need to learn the language cause it will take time also the social media accounts are really cool and funny cause it's funny and it shows us previews so overall it's 5STARS and u need to download it and if u don't do ur lessons duo will take u away ;D

This app makes learning another language fun. It's great. Not only is it fun, it is also easy to comprehend. The difficulty level increases slowly and as it does it continuously incorporates words and phrases already learned to refresh the user's memory. Each lesson has several different styles of learning, which prevents that monotonous feeling that other language-learning apps often cause. Give it a try. I think you'll love it, I know I do. Thank you Duolingo. ❤️

I LOVE everything about this app. Over the years it's just gotten better. The free version has everything you need to enjoy the app, but I did the free trial of the paid version and I kept it because the experience just gets better. In spare time, I've learned two languages enough to understand and hold basic conversations. The rankings and challenges are great for competitive people like me. Very entertaining AND useful. Not something you get every day!

Awesome teachers, small class sizes, and speaking practice

I learned more with Lingoda during the sprint than I did through six months of once per week classes with another program! All of the teachers were incredibly prepared and helpful, it was clear that they wanted to help the students learn. My favorite part was the small class sizes and opportunity to have speaking practice. I have been recommending the sprint program to friends who are also learning Spanish!

Loved my Sprint experience

I learned so much with the Sprint, and I'm glad I challenged myself to do it! Teachers were great, material was easy to follow, and I liked the flexibility. It would be great if there was more flexibility with rescheduling classes in case something comes up day to day, but other than that it was a great experience.

Fun, Flexible, and Full of Speaking Practice!

I've had a wonderful experience with Lingoda! The platform is super well-organized, the classes are easy to book and follow, and the quality of teaching is excellent.

One of the things I appreciate the most is that there's a lot of speaking practice during the lessons. Teachers really encourage everyone to talk, express themselves, and interact — which makes the learning process much more dynamic and effective.

I also really appreciate the flexibility of the schedule and the wide variety of topics covered in class. It makes learning feel both efficient and enjoyable. If you're looking for a structured yet flexible way to learn or improve a language, I absolutely recommend giving Lingoda a try!

Very helpful and motivating!

The content is engaging and the repetition helps me learn. I love being able to send completed exercises to the community and receive corrections from native speakers.

Super Customer Service!

Julia and her Supervisor helped me absolute flawlessly and perfect. Like... if I would get such Customer Support everywhere else in the service industry, it would be probably a lot more relaxed for both Sides, Customers and Vendors, or maybe it just was Respect on Both Sides. However. Thank you again for solving my Issue <3
